

# BIG MOUNTAIN SKIING WITH A PRIVATE VALLEY RETREAT

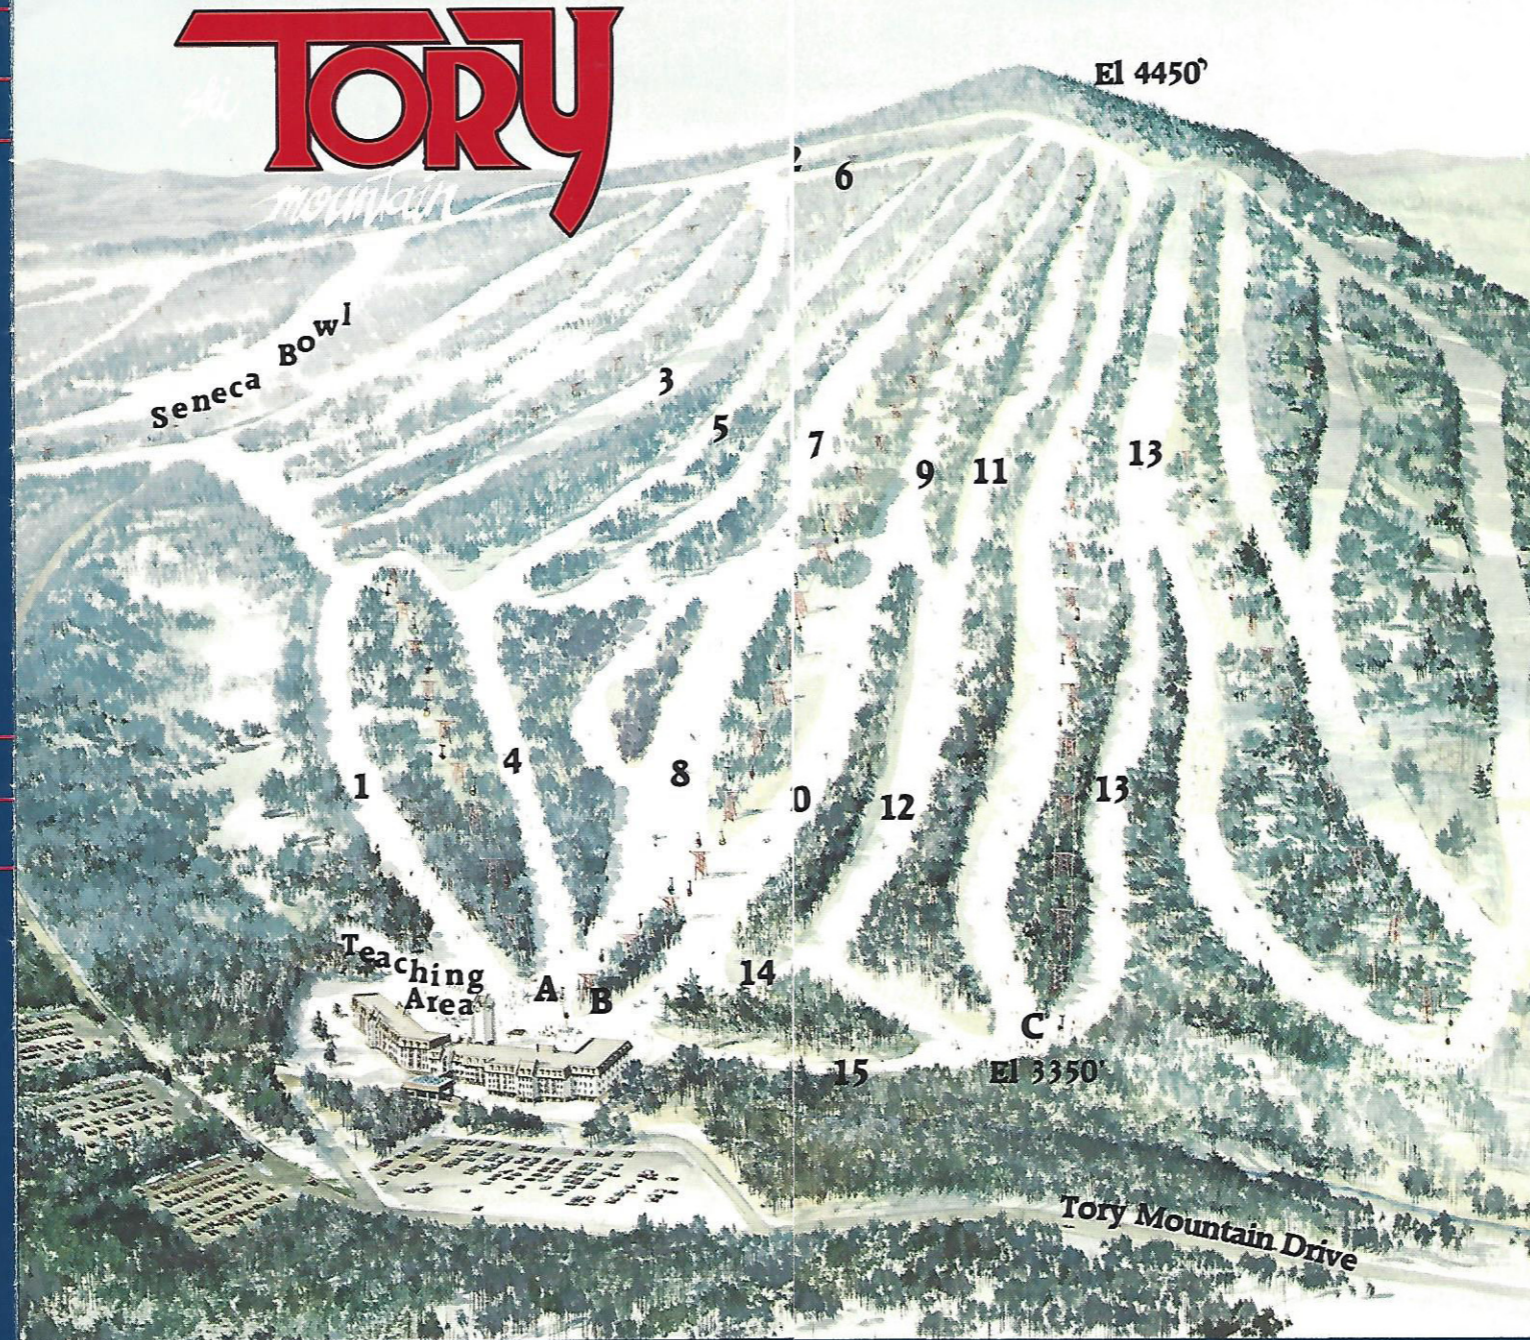

With many months of planning behind, Tory is under construction. Tory Mountain is located high on the eastern continental divide in West Virginia's Potomac Highland snowbelt region between Snowshoe and the Canaan Valley ski areas.

It will include 1600 acres of prime mountain land interlaced with fresh water streams, natural meadows and a private valley where year-round recreational facilities will be established. Most of the land within the resort will be left undisturbed as open space.

The overall master plan calls for 1,500 hotel, lodge and condominium units with up to 150,000 square feet of retail and commercial space for shops, restaurants, entertainment and other support facilities.

Tory Mountain is centered in the 848,000 acre Monongehela National Forest and the 100,000 acre Spruce Knob-Seneca Rock Recreation Area. A strong concern for the environment has been a design criteria throughout and the integration of ski trails, forest and mountain meadowland has been diligently planned.

# TORY

## THE SKIING

The first season at Tory will offer 100 acres of the finest Alpine skiing available in the region and will include 15 trails served by three high capacity triple chairs.

Designed to eventually include 230 acres of trails and 7 lifts, the mountain terrain at Tory is unusually well suited to provide a wide variety of skiing experiences.

Trails will be very wide by regional standards offering the gentle serenity of sculpted trails for beginners, wide-open slope skiing for intermediate skills, to steep glades and bowl skiing for the experts.

The North-facing exposure of Tory's slopes and its location in this high natural snowfall area combined with 100% snowmaking coverage, utilizing the most sophisticated and modern equipment available in the world, will provide dependably good skiing throughout the winter season.

Tory's management knows how to make snow — they've been doing so since skiing started in the Mid-Atlantic Region. They also understand that proper grooming is often the difference between fair and good skiing conditions. At Tory you'll find a **big ski mountain** designed for skiers by skiers.

## THE SKI SCHOOL

Ski school instruction is as important as skiing itself. Our philosophy at Tory is to provide a high quality professional staff to teach basic fundamentals and skills while maintaining an informal and relaxed class environment.

Plans are to incorporate the use of "on-the-mountain" stations for teaching and training of all levels of skiers, beginner to expert. Specialized programs for youngsters (Ski-Wee), a collegiate ski academy and racing programs (NASTAR) will also be part of the overall ski school activities.

With the 2500' "Meadows" training slope served by its own triple chair lift, Tory will present the finest teaching facility in the region.

## GROUP ACCOMMODATIONS

Treat your group, whether large or small, to their greatest ski trips ever. **Enjoy closeby, big mountain skiing** where our staff of professionals will pay very special attention to your needs at affordable prices.

We're close enough for a day trip or a weekend getaway, and big enough for that special ski vacation.

You may choose from slopeside condominiums in the Tory Mountain Lodge where restaurants, pubs, shops and entertainment are just an elevator's ride from your room. Or, stay in the wide variety of off-the-mountain lodging accommodations available in the region.

At Tory Mountain you'll find all the efficient, friendly services and winter fun you'll ever want.

## TORY IS THE MOST EXCITING SKI MOUNTAIN IN THE REGION

### Let us tell you why...

"Northern exposure, careful design of trails, super climate, state-of-the-art equipment, 100% snow-making."

Dan Seme, VP, Mountain Operations

"At Tory the quality of the skiing experience is essential and will be preserved."

Tom Brigham, Executive VP

"Imagine 500 TONS of machine made snow per hour!"

Jeff White, international ski area consultant to Vail, CO; Killington, VT; Mont Tremblant, Canada; Chamonix, France

"You can sense that Tory is a special place the moment you arrive. By limiting development we intend to keep it that way."

Doug Keith, VP, Real Estate

"Just as important as the skiing, is providing a setting of unique ambience — all the social amenities — everything possible to make the total skiing experience here unforgettable."

Billy Hungate, VP, Food & Beverage

"Tory Mountain is reminiscent of the many historic European ski areas that evolved from similar settings."

Freidl Bohm, Architect, NBBJ

## TORY MOUNTAIN LODGE AND VILLAGE

According to the master plan, trails descend to a natural valley which is the site for Tory Village. The focal point of the village will be the Tory Mountain Lodge, developed by the premier resort developers and planners Rossignol & Associates.

The Lodge will be situated directly at the base of the ski area and will house the ski school and retail ski shop, rental equipment, nursery, lounges, variety shops, administrative offices, and restaurants — nearly everything a vacationer might require. All of this is on just the first level.

On the next three levels there will be the finest custom-designed ski retreats anywhere — 307 completely furnished and equipped one-bedroom condominiums. Tory Mountain Resorts will offer a full service rental management program to owners.

The future Village at Tory is planned to be a European style pedestrian environment providing a mix of shops, pubs, restaurants and other support facilities along rustic lanes — perhaps the most unique village center in the Eastern mountains.
